

MSA ACADEMY
PREPARE FOR EXCELLENCE

3 WEEK PRE-MEDICAL COURSE IN ALICANTE, SPAIN

**“Lay the foundation
for your medical
studies where others
go on vacation.”**

MSA Academy's **3 week Pre-Medical Course** offers you the opportunity to acquire as much scientific knowledge as possible in a short period of time. During the course you will consolidate your previous knowledge in **biology, chemistry** and **physics** in a university environment.

In biology, for example, cell biology, anatomy and physiology are covered. In chemistry general chemistry, organic chemistry and basics of biochemistry are among the topics discussed in class. In physics, the topics include mechanics, electricity and optics.

MSA ACADEMY
PREPARE FOR EXCELLENCE

3 WEEK PRE-MEDICAL COURSE IN ALICANTE, SPAIN

- Lessons in English
- Lectures in Biology, Chemistry & Physics
- Refresh & expand scientific basics
- Acquire scientific vocabulary
- Receive course certificate

Our international team of lecturers consists of professors, doctors, teachers, chemists, physicists and biologists. They provide you with substantial basic knowledge in their respective fields. Through multiple-choice tests, which take place at the end of each week, you will be able to regularly check your current level of knowledge. At the end of the crash course, you will receive a course certificate, the acquisition of which will greatly increase your chances of acceptance at European universities.

The lessons take place in small practice groups, so that individual supervision is possible. Since basic scientific knowledge is the basis for successful medical studies, the pre-medical course paves the way for your future as a doctor.

Participation in the preparatory course is not mandatory in order to be accepted at one of our partner universities. However, we strongly advise you to do so, as this will give you the best prerequisites for successful medical studies.
